The process for counting owners and objections is prescribed by federal law (36 CFR 60). The Oregon State Historic Preservation Office (SHPO) provides this form as a courtesy – owners are not required to use SHPO forms in order to object or withdraw an objection. Should you choose to use it, please complete one form for each owner possessing fee-simple, absolute title to real property within the proposed historic district.

Objecting to listing a property in the National Register of Historic Places:

Objections may be submitted by providing a notarized statement. If the majority of private property owners holding fee-simple absolute title to real property within a proposed historic district object to listing the district, it will not be listed in the National Register. Each owner may only object once, no matter how many properties an individual owns within the district. Owners who are not on the Property Owner List, but who provide a notarized statement will be added to the property owner list and the objection will be counted. The Property Owner List is created from county tax records 30-90 calendar days before the public comment period begins. Objections are accepted until the National Park Service makes its final decision. Objections may be withdrawn by submitting a notarized statement.

The Oregon SHPO will send written confirmation by regular mail for every objection received. Letters will state if the objection is accepted or needs correction. Rejected objections may be corrected and resubmitted until the National Park Service makes its final decision. Deficient objections or objections not meeting the Oregon Secretary of State's notary standard will be returned for correction.

Contact the office at (503) 986-0681 or ORSHPO.NationalRegisterProgram@oregon.gov for questions regarding this form. See our website at www.oregonheritage.org for more information about the National Register and project details.
