

Providence has given our people the choice of their rulers, and it is the duty, as well as privilege and interest, of a Christian nation to select and prefer Christians for their rulers.
John Jay, American politician, statesman, revolutionary, diplomat, a Founding Father of the United States, and the first Chief Justice of the United States Supreme Court (1789-95).

Question:	Do you support a parent's right to choose home-schooling as an educational option?	Do you believe that quoting biblical scripture may constitute "hate speech"?	If Roe vs. Wade were over-turned would you support a law in Oregon restricting abortion with exceptions only for the life of the mother?	Do you believe that churches should be forced to hire individuals that do not agree with that church's doctrine?	Do you support the establishment of marine reserve(s) off the coast of Oregon.?	Do you support a government mandate requiring citizens to purchase health insurance?	Do you support the legalization of same-sex marriages in the State of Oregon?

Comment:		Hate speech is a new term for censorship.	I don't think government should be involved in the issue on either side. The reality is Roe v Wade will not be overturned in the fore-seeable future.		I helped write the bill just passed. We have now tied up 5% of the coast for the next 10 years and no more. The initiative we have prevented would have passed and tied up maybe half of our ocean.

Comment:	Currently they have that right. Some parents are up to the task. I suspect some are not.	It's certainly possible to use scripture as part of hate-speech, although misquoting it or quoting out of context is usually necessary.	I believe that abortion during the first trimester, and to protect the life and health of the mother should be allowed. It is my understanding that is the status quo.	Not for positions sensitive to interpreting church doctrine. In other positions and church enterprises, churches should follow the same rules as anyone else.	I support them in order to get good science as to their effectiveness in restoring habitat and fish stock. Then, their status should be evaluated.	But currently, only those that can afford it have to purchase it. People who can afford it, but refuse, should pay for care out of pocket. Until universal coverage.	I question the right of government to restrict marriage rights for any consenting adults. I also think no church should be required to perform same-sex marriages.

Comment:	My husband homeschooled our granddaughter, a great education.	Quoting something from any book, including the Bible, is not hate-speech, it's freedom of speech.	Government should not create laws that control a man or woman's healthcare decisions.	I believe that a church has the right to high the best person they feel is qualified for the position, not forced.	We can manage our coastline in a sustainable manner.	Government has over-stepped their constitutional authority.	Marriage is the provenance of a religious institution, not the state.

Comment:	All recognized and accredited educational programs should be available as a choice to parents.		I believe an abortion should not be an option other than this special circumstance.	I believe that they should be able to hire the best qualified person for the position being offered.	I believe God entrusted all of us with the care and preservation of nature.	I believe a person should have the option to choose.	I believe in the Biblical foundation of marriage between a male and female as recognized by God.
