Caption 10 words which reasonably identifies the subject of the measure.

Voter Approval Required for City to Expend Funds on Pool

Question 20 words which plainly phrases the chief purpose of the measure.

Should Bandon's Charter restrict spending (other than private donations or grants) for operation or maintenance for any pool?

Summary 175 words which concisely and impartially summarizes the measure and its major effect.

Currently, the City has no public swimming pool. There have been public and private organizations that have attempted to organize efforts for construction of a pool. The City has not formally supported any entity's efforts. The Mayor and City Council may determine the City can support a pool construction effort in non-monetary ways but has determined it is not in the best interest of City to risk spending public funds for the maintenance and operation of a swimming pool if a public or private entity is unable after construction of a pool to sustain those costs. The passage of the proposed measure would allow the City to express its support for some swimming pool project but preclude the spending of any tax payer funds for the operation or maintenance, except as specifically authorized by the voters. The City and Urban Renewal would still be able to apply and provide matching funds for capital and construction grants.

Explanatory Statement 500 words that impartially explains the measure and its effect.
